

Ford Bailment Pool Upfit
All High-Roof Transit

Poly Partition Safety Package

At Ranger Design, we are committed to making mobile technicians safer on the road, and cargo van partitions play an integral part in achieving this. Ranger Design’s van partitions (or bulkhead partitions) are engineered to provide a solid, secure barrier between the occupants in the cab and the cargo area.

Composite Van Partition

- *Contoured design allows for maximum seat travel and recline.
- *Tight fit regulates heating and cooling in the cab.
- * Thick composite material dampens noise from the cargo area for a quiet ride.
- * Grab handle included for easy access up into the vehicle
