

VAN MOUNTING KITS

Compact Van Mounting Kits

NEW!

- Faster installation with reduced risk of damage to vehicle during shelving installation
- Heavy gauge steel mounting plates distribute shelf load and provides secure mounting to van interior
- Mounts to reinforced weld nuts for seat belt and cargo tie downs or install blind fasteners in existing holes
- Driver's side and Passenger side Mounting Kits include mounting plates and hardware to install a 36" and a 28" wide shelf unit along the inside wall of the van
- Rear Mounting Kits include mounting plates and hardware to install two 36" wide shelf units over the wheel wells in the rear of the van
